

CDL Driver/Vac Truck Operator

TelCyte is a full-service telecom and infrastructure solutions provider. We take a systematic approach to getting to know our clients and their needs, so that we can develop a comprehensive engineering solution to bring projects from conception through to completion; on time, within budget and will deliver a product with the utmost quality and attention to detail.

TelCyte LLC was founded by a team of industry leaders, who have been working together for over 15 years. Our extensive knowledge in telecommunications and infrastructure provides a solid foundation for a successful design firm. With a focus on current and future technology always in sight, we are consistently keeping up with the latest innovations and provide state-of-the-art design solutions for our clients. TelCyte continues to look for individuals that provide value to us as a company and to our customers.

Position Details

TelCyte Infrastructure Services is seeking a safety-focused CDL Driver / Vac Truck Operator to support underground utility and telecommunications construction projects. This position requires a valid CDL Class A and involves operating a variety of company vehicles and equipment, including hydrovac trucks, dump trucks, and 1½-, 2-, and 5-ton pickups, while maintaining DOT compliance, performing daily vehicle inspections, and ensuring proper load securement and equipment upkeep. In addition to driving duties, this role is hands-on in the field and will assist crews with hydro excavation, potholing, trenching, duct placement, cable installation, backfilling, restoration, handhole installation, and other underground construction support tasks. The ideal candidate has strong communication skills, a positive attitude, a solid work ethic, and the ability to work safely and efficiently in a fast-paced environment while supporting both crew operations and public safety.

Responsibilities

- Perform daily vehicle inspections for DOT compliance.
- Ensure safety of TelCyte employees and public safety while operating TelCyte vehicle
- Responsible for load securement to comply with federal, state, and local requirements.
- Ensure proper maintenance is being followed.
- Trench, place duct, pull cable, and direct bury main-line and drops.
- Perform restoration back to existing conditions.
- Constantly communicate with crew members
- Maintain accuracy in all reporting functions.
- Assist with safety events and is constantly on the lookout for changing conditions.
- Assist Laborers with hand digging, potholing, handhole installation and restoration work when needed.
- Perform other related duties as assigned by the Crew Lead or Foreman
- Ensure equipment is in proper working order and that all systems are working correctly.
- Perform basic upkeep and maintenance of the equipment and communicate any equipment malfunctions or repair needs with the supervisor.
- Communicate with fellow team members using hand or audio signals, to ensure the safe operation of TelCyte equipment.

Qualifications

- Must have valid CDL A.
- **Minimum 2 years of CDL hydrovac experience required.**
- High School Diploma or equivalent preferred
- Strong work ethic
- Must have good communication skills and a positive attitude.
- Able to work in a fast-paced environment.
- The ability to work safely, with or without supervision.

Successful candidates will be required to submit to criminal background check and a drug screen.

TelCyte is an Equal Opportunity Employer/Affirmative Action employer.
